

INTERNATIONAL ENVIRONMENTAL LAW

OVERVIEW

Given our work with multinational clients and BCLP's own international presence, our environmental lawyers have experience in several areas of international environmental law. Through our network of offices in the United States, Europe, Middle East and Asia, BCLP lawyers have advised clients on international business compliance, enforcement and litigation matters. Additionally, in the course of handling the environmental aspects of mergers and acquisitions and other corporate transactions, we have often assessed environmental issues and liabilities associated with facilities in multiple countries. Our lawyers have also assisted clients with unique international regulations such as the Regulation of Hazardous Substances (RoHS), Waste Electrical and Electronic Equipment (WEEE) and Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).
